

PRESS RELEASE

February 20, 2012

Now Available — the new Innovative **"Colonial Railing System"**

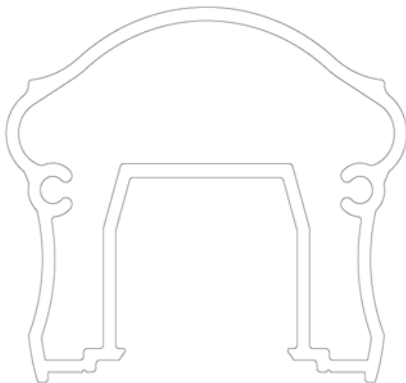

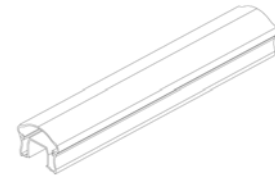

Innovative Aluminum Systems is pleased to add the new "Colonial Railing System" to our standard offerings of top rails designs.

Our new "Colonial Railing System" is an easily customizable and enhanced version of a traditional iron railing that brings unparalleled quality to any patio, deck or balcony. It provides a clean and classic appearance that is versatile for a variety of applications and surfaces.

Our innovative "Colonial Railing System" fuses the old world appeal of a wrought iron railing with the convenience of a low maintenance powder coated aluminum railing.

The craftsmanship and design of our new "Colonial Railing System" coupled with our premium powder coating will make the "Colonial" the most elegant and durable railing system on the market today.
